One of Ukrainian President Volodymyr Zelensky's top officials was sitting in the room when energy exploration and production company Burisma authorities were discussing deciding to proceed with [bribing the Bidens](#).

Government Accountability Institute President Peter Schweizer suggested during his Monday appearance on *Fox News*' ["Jesse Watters Primetime"](#) that this huge "blackmail information" is Zelensky's leverage over the Biden regime for military weapons and billions of dollars worth of "humanitarian aid."

Oligarch Mykola Zlochevsky was "coerced" into sending money to then-Vice President Joe Biden and his son Hunter, who served on Burisma's board from April 2014 until he left the position in 2019. The evidence provided that Zlochevsky and a confidential human source (CHS) reportedly went into a phone call after the 2016 presidential election, in which the former claimed he was "pushed to pay" but did not want to send the money. During the show, Schweizer told Watters: "If you look at that 1023 form that the FBI released, if that document is true, that document reveals that one of the people that was at those meetings that

heard the conversations about bribing the Bidens worked for President Zelensky. Who really wants to believe, if that meeting took place and that document is accurate, that individual did not go and report to President Zelensky what he heard?" The document included that the Ukrainian oligarch said he had a total of "17 recordings" involving the Bidens, two of which featured Joe Biden and the other 15 recordings allegedly only feature Hunter.

Another point he made was that, if that FBI form's information were true, who would believe that Zelensky and his administration have not used this as leverage over Biden when it comes to negotiations with Ukraine policy? "We may all have to start learning the Ukrainian word for compromise because this is a very clear indication of how this has shaped this administration's policy toward Ukraine and also towards China. It is also convenient for Zelensky that there is not a team of U.S. auditors in his country tracking where all of this money went," he stressed.

Schweizer also pointed out that this is yet another bombshell evidence that the older Biden is fully aware of Hunter's business deals, considering how the narrative has been changing through the years just to continue covering up his involvement in the Biden crime family's illegal business dealings.

"They initially said there were no foreign deals. Then they shifted and said there were. Then, they said there might have been foreign deals, but the Bidens made no money. Next, it became 'Joe Biden didn't know about any of the deals.' Then it became 'Joe Biden didn't participate in any of the deals,'" the author of the best-selling book "Secret Empires," which is about the Biden Family crimes, said. "And now it's that he was not in business with his son."

The changing White House statements are just actually making it more obvious that the Bidens are guilty and should be held accountable for their crimes.

Burisma hired Hunter Biden because "his dad will protect them from all kinds of problems"

During a meeting with Burisma executives in Vienna, Austria between 2015 and 2016, Ukrainian official Oleksandr Ostapenko introduced the source to Zlochevsky to advise about the company on potentially buying a U.S.-based oil firm and launching an initial public offering (IPO) in America.

As per the FBI form further, the CHS was made aware of the younger Biden's position on the board of directors during the initial meeting. It was when the source was told that Hunter was hired because he will "protect us, through his dad, from all kinds of problems." This was a big unique selling point for Burisma because allegedly, they did not "trust Hunter was that smart."

During the same time, then-Ukrainian Prosecutor General (PGO) Viktor Shokin was investigating irregularities in the energy firm. Thus, the CHS said it would be difficult for the IPO to take place, but Zlochevsky assured him/her that "[Hunter will take care of all of those issues](#) through his dad."

Not long after that, the older Biden publicly advocated Shokin's dismissal and even bragged to the Council on Foreign Relations (CFR) in March 2016 about using a \$1 billion loan guarantee as leverage to get Shokin fired. Biden made similar comments about Shokin being fired at a CFR event in January 2018, when he was out of office. Biden told the audience, "I looked at them and said, 'I'm leaving in six hours. You're not getting the money if the prosecutor is not fired. Well, son of a bitch. He got fired.'"
